

Sport/Events

- Environmental Consulting
- Environmental Management

Clients

Olympic Coordination Authority

Location

Sydney, New South Wales, Australia

CH2M HILL developed and implemented an environmental management system and operational analysis to ensure the venues and sports facilities would meet long-term social, cultural, and sporting requirements for the people of New South Wales.

Additional work included a risk analysis (facilities and operations) of the potable and reclaimed water, sewer, and stormwater systems of Homebush

Bay (central Olympic site) to identify potential risks and develop risk management strategies related to the water cycle infrastructure.
