## Global Development and Technology Support Center

### Key Highlights

- Greenfield site in Xi'an high tech industrial park
- Phase 1 total facility EPC turnkey approach
- Fast-track schedule of 11 months from groundbreaking to grand opening.

CH2M HILL provided turnkey engineering, procurement, and construction services for the 123,000-square foot factory.

The 106,000-square foot facility on 25 acres (U.S.) offers state-of-the-art laboratory, tool demonstration, and assembly space in its cleanrooms.

Groundbreaking began in April 2006 and the grand opening occurred 11 months later in March 2007.
