

Major Services Offered

- Programme Management
- Conceptual Studies
- Front-end Engineering
- Cost Estimating
- Detailed Engineering
- Procurement
- Construction Management
- Construction

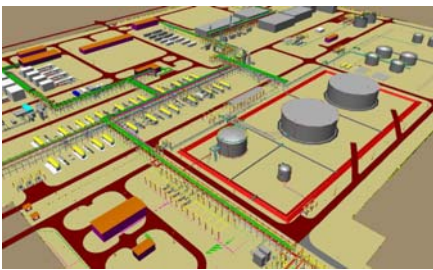

The state-of-the-art Global Engineering & Design Centre, located in Gurgaon (suburban New Delhi), India, is a high-bandwidth, multi-discipline facility offering engineering and technical services to our offices and clients worldwide.

The Centre is sponsored by CH2M HILL's Energy Division, which delivers solutions that span the entire energy value chain—

- Upstream oil & gas
- Pipelines
- Refining
- Chemicals
- Renewable energy - including bioprocesses, wind, and solar

Bio PDO Project Expansion:
U.S.A.

AHDEB Oil Field Surface Development
Project, Detailed Engineering Work:
Iraq

By leveraging CH2M HILL's global expertise & resources, the Centre provides projects a virtual round-the-clock mode of operation. This seamless integration and scheduling capacity allows projects to be executed efficiently & effectively.

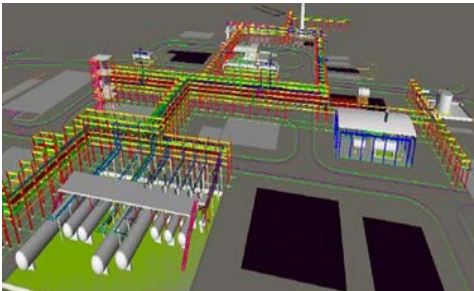

The Centre's team of experts represent all major engineering disciplines, including mechanical, piping, civil, electrical, instrumentation, and project management & controls. Areas of specialty include refining, upstream, chemicals, water treatment, and infrastructure.

Target Zero Objective

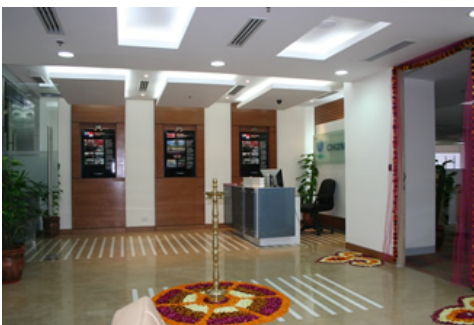

- Zero Injuries
- Zero Adverse Impact on environment
- Zero Errors and Quality Omissions

Industry Leadership

CH2M HILL consistently ranks top in program management, manufacturing, semiconductors, pipelines, wastewater treatment, and site assessment and compliance, according to *Engineering News-Record*, a McGraw-Hill publication.

Poly-Silicon Project, Basic Engineering: Canada

Global Engineering and Design Center: Gurgaon

Serving Clients Locally and Internationally

A sampling of the Centre's projects spans the globe

Upstream

- Zarzaitine Oilfield Surface Facility Expansion Project, Algeria
- Engineering and technical services for Dolphin Energy Ltd, Qatar
- Commissioning assistance for Cairn Energy, India
- Detailed engineering on AHDEB Oil Field Surface Facility Development Project, Iraq

Downstream

- Mini refinery configuration for GSPC, India

Chemicals

- Poly-Silicon project for a confidential client, Canada
- Modernization of a chemical facility for Chemtura, India
- Bio PDO Expansion Project, USA

Industrial Water

- Coal seam methane - Trial water treatment plant for BG Group, Queensland Gas Company, Australia

Infrastructure

- Structural reviews for Mumbai Airport and Bangalore Airport

Consumer Products

- Basic engineering package for Reckitt & Benckiser, India

About CH2M HILL

Headquartered near Denver, Colorado, employee-owned CH2M HILL is a global leader in full-service consulting, program management, design, construction, and operations for public and private clients. With \$6.4 billion in revenue and more than 25,000 employees worldwide, CH2M HILL delivers innovative, practical, sustainable solutions—helping clients develop and manage infrastructure and facilities that improve efficiency, safety, and quality of life. The firm has long been recognized as a most-admired company and leading employer, including being named by FORTUNE magazine as one of the 100 Best Companies to Work For (2009). CH2M HILL is an industry-leading program management, construction management, and design firm as ranked by Engineering News-Record (2008). Visit www.ch2mhill.com.
