CH2M HILL is a global leader in consulting, full-service design, engineering, construction, operations and program management. With 15 years of experience supporting the European region, we help public and private clients realize a greater return on their investments. Our 130 professionals in the Krakow Delivery Centre demonstrate our commitment to the Polish market as well as our ability to serve client needs throughout the region.

Our delivery centre services the water, transportation, energy, industrial, environmental and manufacturing industries. Since 1946, CH2M HILL has grown steadily as a result of the quality and breadth of our services. We currently employ almost 30,000 personnel in 166 offices around the world. CH2M HILL is an industry leading program management, construction management, and design firm as ranked by Engineering News-Record and is named a leader in sustainable engineering by Verdantix.

CH2M HILL Polska recently was ranked as one of "Best Companies to Work For" in Poland; confirming our commitment to our employees and providing value to our clients.

Leveraging established relationships and joint ventures with local firms, we are positioned to provide industrial and enterprise management solutions throughout Poland. We are your single point of contact, taking your project from concept through planning, permitting, design, construction management, and operations.
